Time to Migrate 4 TB of Data in a Single Weekend

For a financial services watchdog, it was all or nothing. The months, weeks and hours of planning how to migrate 8 million documents from a legacy OpenText system into a new SharePoint environment came down to a single weekend.

Forty-eight hours where accuracy, speed, flexibility, and transparency equaled success. The financial regulator was relying on Open Docs and Vyapin's DocKit Migrator for SharePoint to make certain nothing went wrong.
